AVONTUUR WINE AND THOROUGHbred ESTATE are situated on the southwestern slopes of the Helderberg on the R44 road which connects Somerset West and Stellenbosch, in South Africa's prime wine growing district. Stand on the terrace at Avontuur and three things overwhelm you; the magnificent view of Table Mountain, the vista across the Indian Ocean, and, as you turn around, the gloriously rugged Helderberg Mountain range looming at you back. **Avontuur Wine Estate** is a producer of top-quality wines, particularly Reds. The soil aspect and mesa-climate, combined with the cool southeasterly winds from the nearby Atlantic Ocean in summer, produce **grapes of exceptional quality**. ... now add a glass of **Avontuur wine!** www.avontuurestate.co.za

BOUCHARD FINLAYSON
WALKER BAY - HERMANUS - SOUTH AFRICA

Near the Southernmost point of Africa lays a valley named **Hemel-en-Aarde** (Heaven and Earth) framed by mountains and within sight of the ocean, with frost free, soft, beneficial weather and the most perfect clay shale vineyard soils...Established in 1989, Bouchard Finlayson is a boutique winery dedicated to the making of [Pinot Noir](#), [Chardonnay](#) and [Sauvignon Blanc](#) wines of outstanding quality. **Bouchard Finlayson** is located in the wine ward of Walker Bay, an hour and a half from Cape Town. The 125-hectare property currently has 19 hectares under vines; the rest is mountain land covered by the spectacular indigenous Fynbos Flora of the Western Cape. www.bouchardfinlayson.co.za

CAMBERLEY

Perched high on the Hellshoogte Pass just outside of Stellenbosch, Camberley's vineyards are situated on steep, west facing slopes and consist of deep Hutton soils. Gael and Johnny Nel are the winemakers. www.camberley.co.za

Hartenberg Estate's 99 hectares of vineyard comprise a total of nine different soil types and many different aspects and microclimates. This demands that site specific planting be fully researched so as to determine the suitability of the match between the respective varietal and its planting site. Only in 2008 were all the vineyards be fully planted which means that in 15 years a total of 59 hectares of the Estate will have been replanted to varietals which thrive on their site- specific location.

The six site-specific varietals that have been planted, Sauvignon Blanc, Rhine Riesling, Chardonnay, Merlot, Pinotage, Shiraz and Cabernet Sauvignon are the backbone of Hartenberg's future.

DELHEIM

Worth the Journey

High up on the southwestern slopes of the Simonsberg Mountain, named after Governor Simon van der Stel, one finds the land known

as Drie Sprong. It was originally home to a Dutch East India company servant whose job it was to tie the canon from the peak directly above the property, appropriately named Kanonokop. This canon was the 3rd relay from Cape Town, via Koeberg, signaling the arrival of any foreign vessels in Table Bay. The Free Burghers of the surrounding areas would then hurry to Cape Town and trade with the visitors or defend the town against attack. It is at this property that the Spreling and Hoheisen families established the strong foundations known to people worldwide as Delheim

Our Vineyards

The wines of IONA come from a dramatically unique site in the Cape Winelands.

The vineyards are on a mountain plateau 420 meters above sea level, surrounded by the Kogelberg Nature Reserve, and overlooking the Atlantic Ocean. In a country where cool sites are precious, these vineyards are like gold – the grapes ripening up to two months later than other Cape vineyards and in perfect balance. Iona is South Africa's coolest vineyard site. Andrew Gunn and family acquired this beautiful, but run-down apple farm in 1997. It was renamed "IONA" after the remote, spiritual island off the west coast of Scotland. We Gunns can trace our ancestry to the Vikings that landed in Scotland in the 900s, hence the Viking longboat emblem on our labels. www.iona.co.za

MORGENHOF ESTATE is situated on the slopes of the Simonsberg mountains outside Stellenbosch. This area is renowned for the high quality of its grapes, from their beautiful reds to the most outstanding whites and the distinctive terroir is reflected in the character of the exceptional wines. Owned by Mrs. Cointreau-Huchon, Morgenhof Wine Estate dates back to 1692 and consists of 212 hectares of which 74 hectares are under vines, producing approximately 35,000 cases a year. Morgenhof Estate Wines won Best of Show in Paris for their Premier Selection 2001. www.morgenhof.com

POSTHOUSE farm was bought by the Gebers family in 1981. It is situated in the picturesque area between the towns of Somerset West and Stellenbosch, at the foothills of the Helderberg Mountain. On a clear day Cape Point and False Bay are visible from the winery. This area is one of the preeminent wine regions in South Africa. The farm was systematically planted to vineyard with the grapes being sold to the local cooperative. It was only in 1996 that a couple of experimental barrels were made by Nick Gebers, with the help and encouragement of a local winemaker. Two vintages later, and after a stint in Burgundy, the first vintage was released. The farmhouse used to operate as a small Post office, which used to serve the local missionary community of Raithby; therefore it was a logical step to associate the wine with its postal origin.

The wines were thus named **Post House**. www.posthousewines.co.za

REMHOOGTE WINE ESTATE is situated on south and south west facing slopes in the foothills of the Simonsberg Mountain in Stellenbosch.. They have spectacular views of the mountains of Stellenbosch to the South and Table Mountain to the West. A section of the farm has been set aside as a game area, and Zebra, Wildebeest, Springbok and Eland bring the spirit of Africa to the wine lands of the Western Cape. The 60 ha estate is owned and run by the Boustred family, and strives to produce small quantities of red wine of finesse and quality. Michel Rolland, the world renowned wine consultant and producer from Bordeaux, was so impressed by the Merlot from Remhoogte that he chose to become a partner in the cellar. Each year Michel Rolland assesses the wines produced from the vineyards of Cabernet Sauvignon, Merlot, Pinotage and more recently Shiraz, and creates the three blends produced by Remhoogte. www.remhoogte.co.za

Missionvale Chardonnay has long been a wine of intense pride. This is an intensely focused wine of near perfect balance. It is fresh, marginally oaked for six months with an almost white peachy crispness, mixed with a complex yeasty orchestration of flavors. It ends with a tang of richness which lasts a full minute on the palate. With time it will slowly become even more interesting as its nuttiness and complexity continues to develop.

Galpin Peak Pinot Noir An excellent crop and an excellent wine!

This is a rich fruity wine with the nose aromatically scented with exciting whiffs of truffles and fruits of the forest. The wine is full with soft tannins, which ensure many years of positive development. Pinot Noir is the most food flexible varietal. Its richness comes from a multitude of layers of flavor. Enjoy with fish, poultry, game birds, and red meats.

Galpin Peak Tête de Cuvée Pinot Noir Pure aromas of raspberry, cherry,

flowers and spices, plus a hint of vanilla. Tête de Cuvée reflects the winemaker's opportunity to create a blend from a handful of chosen, best barrels in the cellar from a particular vintage. Not every vintage presents suitable quality for this selection. □Vintage 2009 offered a rain free summer with relatively dry conditions which impacted favorably to produce small berried fruit with intense color and concentration. This resulted in a wine which needs time to develop and promises to be a classic bottling for those who are prepared to wait. □□It is a black fruit driven Pinot noir boasting flavors of mulberries, plums and violets and lingers with a nutty fullness and good tannins. □

Musky suggestions of truffles. Ideal with red meats, game and cheese.

Iona Chardonnay

We harvested our first Chardonnay grapes on the 7th of March 2006 at a very low 2 ton/ha. The fruit was in excellent condition with a very good analysis resulting in 13,5% alcohol, 1,8gm/l of residual sugar and 7gm/l of acid. The oak regime largely determines the style of wine and we believe oak should be used sparingly to ensure we express the fruit from our vineyard in the Chardonnay. Only 250 cases of what promises to be an exceptional Chardonnay will be released in January 2007.

Missing Virgin A stunning red blend of Pinotage and Petit Verdot grapes resulting in a wine which has an intensely bluish color; a scrumptious full bodied rich wine with supple soft tannins, a hint of blueberries, fruit cake and wild heath on the nose. Enjoy with spicy dishes, light curry and beef roasts. Enjoy now or keep for up to 8 years 70% Pinotage, 30% Petit Verdot.

The name refers to a printing error on a Virgin Island stamp. The virgin figure was omitted from the stamp, hence the nick-name, "Missing Virgin". St. Ursula was a virgin martyr who lived between the third and fifth centuries A.D. She was born in Britain, avoided marriage to a pagan king and is believed to have been slain for her faith with 10,000 virgin companions at Cologne, Germany. Christopher Columbus named the Virgin Islands in her honor.

Remhoogte Pinotage 09 The ripening period was perfect and the resultant wine is full and rich. This Pinotage is drinking really well now but will age excellently. This wine shows an assortment of berries on the nose, with currents being dominant, backed up by spicy fynbos and fresh tobacco. The palate is true to the nose and the result is a taste sensation you will not forget!

John Platter 2010 – 3.5 Stars

Remhoogte Merlot Reserve 07 Deep garnet color, fresh cherry fruit on the nose with aromas of fynbos and creamy toffee. Full, rich mouth feel, ample bodied, layered with hints of chocolate truffle and dark berried fruit. Well-integrated firm tannins and classically dry finish.

Mandolin Vintner's Central Coast Monterey, California

Mandolin Pinot Noir Monterey

The grapes for this Pinot Noir were sourced from vineyards in the Santa Lucia Highlands AVA of Monterey County, where high winds, dry days, and bay fogs create a cool, but very long, growing season. These growing conditions are ideal for cool-climate grapes such as Pinot Noir, and lead to full, forward fruit flavors and ideal acidity. Grapes were harvested at an ideal balance of sugar and acid, and the wine was fermented in small open-top tanks. The wine completed malo-lactic fermentation in French oak barrels, where it aged for 8 months prior to bottling.

With its maritime influence, California's Monterey region has an extended growing season that yields wines with full flavor development and great acid balance. Mandolin Pinot Noir is a rich wine that features bright cherry and raspberry fruit with hints of spice, leather and cedar.

Sylk Cellars Cabernet Sauvignon

Napa Valley

Jeff Booth Winemaker

The wine of Sylk Cellars is sourced from its own vineyards in the Napa Valley. Our location provides the origin of Sylk's name. Sylk Cellars vineyard is planted along the Silverado Trail where it meets the southern border of the Stags Leap District and eastern border of the Yountville District. The Oak Knoll District is a stone's throw away; Hence our name Sylk — Stags, Yountville, Leap and Knoll.

Under the careful cultivation of Javier Renteria, the vineyard developed with a focus on high-quality wine grapes. Each year, most of the fruit was cut from the vines to enhance cane and root structure development. In 2006, the harvest was brought from vine to barrel by our wine makers Bob Pepi and Jeff Booth. Jeff is now our sole wine maker, but he gladly shares decisions and responsibilities with Carl Thorsen, a founder of Sylk, who was graduated from the UC Davis wine maker program.

The wine is the culmination of seven years from planting to release to your table. Each bottle of Sylk opened, shared, and enjoyed is a celebration.

2007

Napa Valley

Cabernet Sauvignon

Carlson & Barton Vineyard

Sylk Cellars Cabernet Sauvignon is a limited production, single-vineyard, estate-grown wine. Our 2006 vintage resulted in just 485 cases. The 2007 vintage culminated in 450 cases and the 2008 in 385 cases. Most vineyards in Napa Valley saw a reduction in harvest tonnage in 2008 — and Sylk Cellars was no exception, producing just under six tons from our two acres of vines.

Sylk Cellars is 100% Cabernet Sauvignon and all of the fruit is from our vineyard. Our wines are aged primarily in new French oak barrels, 60% new in 2006 and as much as 75% new in 2008, for 22 months. We keep our wine in the bottle for almost one year before the formal release. Our winemaker and vineyard manager are artisans and their experience and judgment are reflected in the quality of the wine

2007 Sylk Cellars Cabernet Sauvignon won a Gold medal at the very prestigious California Orange County Fair and is also available now. The aromas include cherry, ripe plum, toasted almonds and a hint of maple syrup. The taste profile is dominated by ripe cherry, followed by tamarind, coconut and toasty oak. On the palate the wine is full bodied with a soft tannin feel.
